extracellular matrix binding, GO:0050840

transmembrane receptor protein tyrosine kinase signaling pathway, GO:0043539

calcium-dependent phospholipid binding, GO:0005544

negative regulation of Notch signaling pathway, GO:0045746

male meiotic nuclear division, GO:0007140

positive regulation of inflammatory response, GO:0050729

heparan sulfate proteoglycan binding, GO:0043395

collagen trimer, GO:0005581

immunoglobulin mediated immune response, GO:0016064

dichotomous subdivision of terminal units involved in salivary gland branching morphogenesis, GO:0032910

protein localization to juxtaparanode region of axon, GO:0071205

homophilic cell adhesion via plasma membrane adhesion molecules, GO:0033069
