positive regulation of ATPase activity, GO:0032781

mitotic cell cycle, GO:0000278

positive regulation of cytosolic calcium ion concentration involved in phagocytosis, GO:0032781

regulation of type I interferon production, GO:0032479

positive regulation of substrate adhesion-dependent cell spreading, GO:0032781

camera-type eye development, GO:0043010

histone methyltransferase activity (H3-K4 specific), GO:0042800

intracellular transport, GO:0046907
