

endothelial cell chemotaxis, GO:0035767

positive regulation of cell differentiation, GO:0045597

mitotic spindle assembly, GO:0090307

ribosomal large subunit biogenesis, GO:0042273

RNA processing, GO:0006396

costamere, GO:0043034

RNA 3'-end processing, GO:0031123

DNA damage response, detection of DNA damage, GO:0042769

wound healing, GO:0042060

Cajal body, GO:0015030

positive regulation of translational initiation, GO:0045948

sister chromatid cohesion, GO:0007062

nuclear periphery, GO:0034399

cytoskeleton organization, GO:0007010

condensed chromosome, GO:0000793
